

Lead Auditor Course

The course enables the participants to develop the needed expertise to audit a management system based on the required standard and to manage a team of auditors.

Course Outline

Compass Assurance Training offer an internationally recognised certified Lead Auditor Course through our partner PECB.

PECB are a global certification body for persons, management systems and products. The Lead Auditor training outlines how to lead and conduct both internal and external audits. Compass Assurance Training offer Lead Auditor courses in the following standards:

- ISO 9001:2015 Quality Management Systems
- ISO 27001:2013 Information Security Management Systems
- ISO 45001, Safety Management Systems

The course enables the participants to develop the needed expertise to audit a management system based on the required system and to manage a team of auditors by applying widely recognised audit principles, procedures and techniques.

Learning Outcomes

The Lead Auditor course will cover the following Learning Outcomes;

- An understanding of the relevant standard
- An understanding of the principles of internal auditing
- Plan and conduct an unbiased Management System audits in accordance with ISO 19011 for both internal and external purposes
- Report the audit, including writing valid, factual and value-adding findings
- Describe the roles and responsibilities of auditors and team leaders
