

14001 Environment Essentials Course

This essentials course is designed to provide a practical overview of ISO14001:2015 in terms of how it applies to your business; focusing on the areas we see the most issues with during the ISO14001 certification process.

Course Outline

The course is designed to provide a basic and contextualised introduction to the standard. Emphasis is placed on practical application by considering how the standard applies to your business.

Learning Outcomes

14001 Environment Essentials Course covers the following Learning Outcomes:

- A basic understanding of ISO 14001
- How to write a policy document
- Understanding your environmental aspects and impacts
- Understanding objectives
- How to start planning your audits
- How to formulate a corrective action process

Who should attend?

The Environment Essentials Course is suitable for all learners keen to develop an understanding of ISO 14001 and its practical application.

The course is particularly suited to those who are new to ISO standards and are implementing it for the first time.
