

PECB Certified ISO/IEC 27001 Foundation

Become acquainted with the best practices of Information Security Management Systems (ISMS) based on ISO/IEC 27001

Why should you attend?

ISO/IEC 27001 Foundation training allows you to learn the basic elements to implement and manage an Information Security Management System as specified in ISO/IEC 27001. During this training course, you will be able to understand the different modules of ISMS, including ISMS policy, procedures, performance measurements, management commitment, internal audit, management review and continual improvement.

After completing this course, you can sit for the exam and apply for the “PECB Certified ISO/IEC 27001 Foundation” credential. A PECB Foundation Certificate shows that you have understood the fundamental methodologies, requirements, framework and management approach.

<p>Who should attend?</p> <ul style="list-style-type: none"> Individuals involved in Information Security Management Individuals seeking to gain knowledge about the main processes of Information Security Management Systems (ISMS) Individuals interested to pursue a career in Information Security Management 	<p>Learning objectives</p> <ul style="list-style-type: none"> Understand the elements and operations of an Information Security Management System (ISMS) Acknowledge the correlation between ISO/IEC 27001, ISO/IEC 27002 and other standards and regulatory frameworks Understand the approaches, standards, methods and techniques used for the implementation and management of an ISMS

PECB Certified ISO/IEC 27001 Lead Auditor

Master the Audit of Information Security Management Systems (ISMS)
based on ISO/IEC 27001

Why should you attend?

ISO/IEC 27001 Lead Auditor training enables you to develop the necessary expertise to perform an Information Security Management System (ISMS) audit by applying widely recognized audit principles, procedures and techniques. During this training course, you will acquire the necessary knowledge and skills to plan and carry out internal and external audits in compliance with ISO 19011 and ISO/IEC 17021-1 certification process.

Based on practical exercises, you will be able to master audit techniques and become competent to manage an audit program, audit team, communication with customers, and conflict resolution.

After acquiring the necessary expertise to perform this audit, you can sit for the exam and apply for a "PECB Certified ISO/IEC 27001 Lead Auditor" credential. By holding a PECB Lead Auditor Certificate, you will demonstrate that you have the capabilities and competencies to audit organizations based on best practices.
