

Internal Auditor Course

This Internal Auditor course enable participants to understand the internal audit process and complete an internal audit of their business.

Course Outline

The course is designed to provide a basic and contextualised introduction to the internal audit process. Participants will cover what an internal audit is and why they are conducted as a requirement of maintaining certification.

Learning Outcomes

The Internal Auditor training course covers the following learning outcomes:

- Understand what an internal audit is
- Why internal audit is conducted
- Determine what to audit
- How this will be done
- How and what to report

Who should attend?

The Internal Auditor Course is suitable for all learners keen to develop an understanding of the requirements of an internal audit and it's practical application.

The course is particularly suited to those who are new to ISO standards and are implementing systems for the first time.
